Genesis All-in-One Multifunctional Access Control Station

Virtual Receptionist

Product Presentation

YOUR VIRTUAL RECEPTIONIST / CONCIERGE

Meet & Greet Visitors – records visitors/staff entering/leaving. Face recognition / ID card – cost saving

Flexibility – the Genesis ACS can be programmed to advise or request the wearing of masks, hand sanitisation, registration

Reassurance for employees, visitors and customers that health and safety is of paramount importance – social responsibility

Safety – thermal temperature, occupancy levels, face masks, hand sanitisation

Sales – opportunity to collect customer contact details (with approval) for marketing

Cost saving – no need for human resources checking credentials

0 Our Premises are protected by 0 **Access Control Station** GENESIS Hands+Face+Space KEEP SAFE!

Product Presentation

FACE MASK DETECTION

On/off ~ on - mandatory or discretional warning \rightarrow

Face mask detection by monitoring the face immediately

It warns/advises the entrant not to proceed or recommends the wearing of a mask

Optional visual and audible alerts

WHY IS FACE MASK IMPORTANT? Airborne diseases dramatically reduced

Flu 20/21 was down 95%

0

GENESIS

CONTACTLESS HAND SANITISATION

Zero contact to avoid the risk of cross infection

Smart Infrared Motion Sensor

 \rightarrow The disinfectant sprayer is made of ABS material, which is environmentally friendly and safe, corrosion resistant, insulating current and not easy to be deformed

→ Hand 1000ml large capacity tank, long-term use, disinfectant easy to change

OPTIONAL "SOFT" TRACK & TRACE

Customers can be pre-register or register at the Genesis ACS

Time, temperature, mask status, photo, name and contact details (if required) are recorded. All details automatically deleted after a preset time. The default is 21 days for visitors to comply with GDPR.

Optional acceptance to retain contact details for marketing and promotional purposes

Soft Track & Trace, notification that a person has been found to have been Covid positive whilst recipient on premises and that they are advised to avoid contact with vulnerable persons to avoid further transmission

Optional occupancy monitor to avoid over-crowding

GDPR compliant

Product Presentation

PRODUCT BENEFITS

Auto Temperature Detection

- QR Reader
- Face mask wearing policy preferred/mandatory
- Contactless hand sanitisation
- Temperature scan & customised warning
- Controlled/monitored entry to premises
- Unobtrusive track & trace facility labour saving
- Staff ID & visitor pre-registration optional
- Occupancy control if required, to avoid over-crowding
- Advisory and/or mandatory information
- Free-standing / Countertop / Wall Fixture
- Data Management & Reporting
- Android Technology Software Integration
- Customisable Audio & Visual Warnings
- User Friendly
- Dynamic Camera
- Large ID Recording Capacity if required
- Marketing video & promotional opportunities

QR Reader

Verification*

Card Reader

Contact-less Hand Sanitisation

* Options: on/off mandatory/discretional

PRODUCT FEATURES

- ✓ QR Reader
- ✓ Supports ID card identification and stranger warning function.
- ✓ Contact database can be held on machine or secure network
- ✓ Equipped with offline and online 10,000+ face database
- ✓ The integrated design is adopted to ensure the safety and reliability of the equipment and provide guarantee for the accuracy of identity verification.
- ✓ The face recognition all-in-one machine. Supports personalised customisation.
- ✓ Camera field of vision can be adjusted
- ✓ Non-contact face identification is easy to implement and enables pre-registration
- \checkmark HD color screen with high resolution.
- ✓ Supports multi language switching, high-definition voice prompts.
- ✓ Fast and efficient, with high recognition accuracy and fast verification speed.
- ✓ Voice broadcast, user-friendly touch screen, simple and stylish interface.
- ✓ Good quality speaker
- ✓ Heat dissipation hole for the ventilation of machine temperature.
- ✓ Supports USB disk download and self-service report.

30,000 face database

Ensure safety and reliability

> Personalised customisation

Non-contact identification

> **Fast and** efficient

QR Reader

APPLICATIONS

STAY SAFE in business

Hospital Transportation Airport

Helping you reduce the risk against viral and bacterial infections

Product Presentation

COVID-19 aside, the future will be different.

Genesis AIO helps you to keep your premises SAFE!

CONTACT US

Global Procurers Ltd. Lacey House, High Street, Lavendon Buckinghamshire MK46 4HA Contact Tel No: +44 (0)1234 240888 Contact Email: info@GPLtd.net Company Reg No: 03964394 Company VAT No: 159 6341 83

PRODUCT ADVANTAGES

High-performance intelligent processor, face recognition algorithm based on deep learning, greatly improves the rate of face capture.

Supports face optimisation, face enhancement and face exposure to improve imaging quality.

Supports real-time temperature detection and high/low temperature alarm.

Supports live anti-counterfeiting, based on facial biometric recognition, can not be replaced and copied so prevents counterfeiting operations.

QR Reader

Helping you reduce the risk against viral and bacterial infections
